Locals Win from Harrisburg by Hard

Another victory was recorded in favor of Scranton yesterday, Harrisburg being the victim. That makes the fifteenth consecutive league game the locals have won. They also won the exbibition contest following Saturday's league game, which makes a string of sixteen uninterrupted victories.

There was an abundance of hitting all through the game. Long Tom Flanaghan's curves and shoots received the worst punishment that has been administered to them for weeks, Sprogel who fondled the sphere for Harrisburg, fared much worse.

The locals punched the balls all over the field until the rent and lacerated atmostphere groaned in agony as the horsehide sphere tore great, gaping holes in it, Mr. Sprogel was found altogether for seventeen hits and only the splendid work of the fielders kept the total down to that figure.

Staltz carried off the batting honors of the day, with two singles and two triples. Hogan had a single and a triple, and Westlake a double and two singles.

During the first five innings the game was sharply contested. Harrisburg was playing in its first season form and there were not a few among the spectators who expected to see Coxey Sales and the members of his club break the long string of victories ground. that have rewarded Scranton's earnest

It may have been the wrong font stockings they wear, the warm weather or the hard hitting of the locals, but whatever the cause, true it is that after the fifth inning the boys from Harrisburg played decidedly careless and sloppy ball, They lost as they deserved. The score: SCRANTON.

Comiskey is not playing on his nine. There is no doubt about "Commy's" decline in health. He lacks running powers, and a three base hit and a sprint from first to third almost exhausted him, so that it was necessary to invent excuses to gain time in which he could regain his "wind." The great first baseman will not play many more games.

They pass the afternoon alternately cheering "Eddie" and hooting the unfortunate player, who as a stranger, is compelled to field under the shadow of their contempt. It is made for the express purpose of forming as perfect a substitute for healthy mother's milk as analysis will show. It is pleasant to the taste, and has the unusual virtue of inducing delicate babies to take nourishment when other food disagrees with their weak stomachs. Lactated food has saved thousands of babies from falling victims to cholera in-fantum by keeping up their strength, without increasing, as most food does at such times, the irritation in the intestines that is accountable for most
